## MESSAGE

**Aires Pereira**

City Mayor Póvoa de Varzim

We are extremely pleased that an event of such magnitude takes place at Póvoa de Varzim. The first World Inclusive Games Championship brings together different organizations such as the ISF, Regional Education Administrations and Schools, working as one. The City Hall, as a partner, provides several equipment and logistics.

The fact that Póvoa de Varzim has a long tradition in sport, in general, and adapted sport in particular, was probably the reason why we were chosen to host this championship. Well, we will certainly rise to the challenge.

Therefore I want to thank the ISF, to the Regional Administrations of Educations and Schools for trusting us, in the city and the City Hall, the preparation of this event. I also thank all the partners involved in the organization, whose contribution is decisive for the success of such a competition.

I want to greet the athletes, their technicians and assistants, representing different European countries, and I wish they experience memorable moments.

Póvoa de Varzim is and will always be your home.

**You are welcome!**

## INTERVIEW - Kole Gjeloshaj (ISF)

Mr. Kole Gjeloshaj, the ISF Delegate, gave his impressions on the ISF- Inclusive Games that are taking place at Póvoa de Varzim stating that he is quite pleased to be here and to have the chance of attending these games.

Portugal has a long tradition in organizing sport events. Therefore, its candidacy to arrange the ISF-Inclusive Games, for the first time, is revealing of the country’s awareness of how schools and sports are vital in the change of minds and social perspectives.

The ISF- Inclusive Games, which comprise different school levels, national and international events, are of huge relevance because they are non-competitive games and through sports in different fields, diverse countries and participants meet with a unique aim – inclusion.

In the future there will be better, open-minded citizens.

### SPORT EXPERIMENTATION

The participants of the Inclusive Games were able to experiment different sports. The ocean and the swimming pool were the privileged stages of these experiments.

There were three different activities in which the athletes changed stations. All participants had enough time to practise and thus, being able to enjoy the activity. All delegations will surely remember this activity as one of the highlights of the event. New sensations and fun were the ingredients that allowed this HUGE EXPERIENCE!

REALLY AMAZING!

## INCLUSIVE GAMES SEMINAR

The Seminar will take place tomorrow, the 9th July. As usual, we are trying to build a bridge to the future by discussing major topics essential to the sport development in this area. Inclusive sport is a topic of vital importance, both sportive and social, and these are the goals of this seminar. Therefore sharing good teaching practices, knowledge and the “know how” of each country is essential.

All the participating countries were invited to attend and participate with a statement on the topic of Inclusive Sport. All the countries ratified their presence at the seminar.
