MESSAGE

JOÃO PAULO REBELO - Secretary of State for Youth and Sport

It is an honour for Portugal to organize the First World Championship of Adapted School Sport- ISF Inclusive Games.

Encouraging equal opportunities and inclusion within and through sport, must start at an early stage. School sport meets this end, perfectly.

The participant students truly exemplify this ideal. Regardless of the barriers, it is possible to achieve our goals.

I hope this event brings awareness of the vital role of sport in assisting inclusion and that you remember Portugal as an example of strength and personal conquest.

“...society really inclusive, where School is a place for all!”

João Miguel Gonçalves

João Miguel Gonçalves — North Regional Delegate for Education

The realization of the first edition of the ISF Inclusive Games School World Championships in Portugal and in the territory of our DGEstE - North fills us with pride as it shows our determination and involvement in creating a society really inclusive, where School is a place for all!

“Only then can change happen.”

Mário Lopes

INTERVIEW

Interviewing Mário Lopes, teacher of Physical Education and President of the Portuguese Sport Federation for Impaired.

Mr. Lopes believes this to be an extraordinary event. It is groundbreaking as it changes the school perspective on impaired. The fact that School Sport considers now Inclusive Education in its plan, is very significant.

In a way, these games have created a snow ball – perspectives, teaching practice, syllabus must all be reviewed or changed, in order to make inclusion real. Inclusion happens when society and schools live it, whatever the circumstances.

Events such as these must be amplified to all students, levels, schools and countries. Only then can change happen.

R: What do you think about the ISF – Inclusive Games 2019?

HM: Very good! Everything is fine and well organized.

R. And what about the cultural day? Did you enjoy the visit to Oporto?

HM: I have already visited Oporto but is always a pleasure to visit such a beautiful city and everything was very good.

R: If you could change anything in Inclusive Games 2019, what would it be?

HM: I would change the schedule of the competitions to allow the athletes to see the other sports in the event. For instance, to allow athletes to see the finals!

INTERVIEW – Albertino Cadilhe (Rocha Peixoto HS)

The IG News interviewed the school headmaster, Mr. Albertino Cadilhe, on the impact of the ISF Inclusive Games in the school.

In his opinion, this is a very important event because it shatters the way people think of and act towards Inclusive Education. It is not enough to talk about it- it is necessary to actually act on his behalf. The seminar that occurred yesterday was the perfect means to convey this message.

The timing, the school year is over, and the shortage of personnel, could stop the event from happening, but all the staff and personnel share an incredible sense of mission and availability.

This is an Inclusive School - not because there is legislation to enforce it - but because the school goal is to support, and fill in the needs of each and every student here. This is only possible because staff, personnel and students bring it to life every day.
